

Dr Nicholas Ngui

MBBS (Hons, UNSW), FRACS

General, Breast and Thyroid Surgeon

Dr Nicholas Ngui is a General Surgeon, with particular expertise and interest in breast and thyroid surgery. He is a Staff Specialist at Mount Druitt and Blacktown hospitals and a Visiting Medical Officer at Norwest Private Hospital. He also conducts regular sessions at BreastScreen NSW.

Dr Ngui manages a wide range of general surgery conditions, specialising in breast surgery including oncoplastic and reconstructive breast surgery, and thyroid surgery.

Dr Ngui graduated from the University of New South Wales with Honours in 2003. He subsequently went on to complete further general surgery training and became a fellow of the Royal Australasian College of Surgeons in 2011. This was followed by further post fellowship training and research in breast surgery at the Westmead Breast Cancer Institute.

Dr Ngui is involved in the training of medical students and surgical trainees at Mount Druitt-Blacktown hospitals where he is a surgical supervisor of training. He is very active with the Royal Australasian College of

surgeons instructing on numerous courses. Dr Ngui is a clinical lecturer with the School of Medicine, University of Western Sydney and his research interests include axillary nodal surgery in patients with breast cancer.

Services provided include:

- General and laparoscopic surgery
- Breast cancer management
- Oncoplastic/reconstructive breast surgery
- Thyroid and parathyroid surgery
- Abdominal hernia surgery with a focus on the laparoscopic approach.

Consulting and operating at:

- Norwest Private Hospital
- Mount Druitt and Blacktown hospitals
- BreastScreen NSW.
